Statement

To whom it may concern,

My name is Wei Zhao, a Ph.D. student in the department of Computing & Software. I am applying for the Internal Director of the Board of the GSA.

I have been the VP Services of the GSA from 2019 to 2023. During that period, I have implemented many wonderful projects, such as the new GSA website, orientation workshops, COVID-19 related program changes. The MBA students and visiting students have been included in the same insurance plan of most graduate students. With my help, all the GSA clubs have held tens of events every year and I have gained much valuable experience on event and trip planning at the same time.

I like to work with students and resolve problems they encounter. Once I get the position, I will continuously provide the insight to the financial related issues as I did before. As a person majoring in computer science for many years, I can also give my suggestions on any IT infrastructure.

Thank you very much for your consideration!

Wei Zhao
