

## Patrick Sauriol

My name is Patrick Sauriol, and I am running to be this year's GSA **President**. I am a second year PhD student in the Political Science department. I have previously served as the VP Administration for the GSA where I handled our finances, funded clubs and events, and created the GSA's long-term investment strategy that will provide better services for graduate students. I first ran for the GSA because I wanted to help support graduate students and advocate for us within the university. I am running for President because I feel that there is more the GSA can do for students. I want to increase awareness of what the GSA offers, such as events, bursaries, and benefits. I want to work to better our insurance coverage, like what I have done in increasing physio coverage. I also have been working to create a childcare fund to help graduate students with kids pay for childcare costs. I also want to work to better the rights and responsibilities between students and their supervisors. Vote for me if you want to have positive change for graduate students. As GSA President, I will increase the visibility of the GSA, ensure your voices are heard, and keep working to provide better benefits and student bursaries. Thank you for your support.
